Company History

- Avitus Group started in 1996 with 3 founders, Willie Chrans, Art Geiger and Steve Bentley
The concept was simple:
- Successful businesses focus on what they do best.
- Many business owners don't have corporate advantages like a payroll department, an HR department, Recruiting, etc.
- What if businesses could share these experts?
- Avitus Group is proud to be celebrating 20+ years in business (Est. July 1996 in Billings, Montana)

What does the name Avitus Group mean?

- The name comes from the Roman Master Soldier-Avitus
- Avitus re-wrote the rules of warfare by combining resources & innovative strategies to defeat the seemingly unstoppable Atilla the Hun (uh-till-uh/ the Hun) & save the empire Atilla the Hun conquered a lot of Europe, but Avitus gathered other countries' armies to join together & in the end defeated Atilla the Hun.
- Much like the Roman Empire, business owners face seemingly relentless challenges
- A business alone can many times be defeated by all of the challenges they face: taxes, accounting, recruiting
- By themselves, it is a battle, but if all of these businesses share the resources Avitus Group provides...it is affordable...and they can focus on growing their business
- Businesses share a staff of our professionals

Avitus Group Mission

- Avitus Group strengthens and grows companies with a vast menu of business offerings designed to simplify the complex nature of business ownership while creating a meaningful and long-lasting relationship.
